company capabilities

Electrol has been a manufacturer and assembler since 1965. We have the continuity of the same ownership since we founded our York, PA factory. Electrol offers custom panel assemblies, custom cables and harnesses, and motor controls.

Custom Panel Assembly

From short runs to customized build-to-print orders, our skilled technicians have over 100 years of combined experience. By outsourcing to us, you can save valuable time and increase the bottom line. Let us do what we do best! Your product, our pride.

Controls and Motors

We offer a wide product line of standard and OEM modified speed controls to improve the efficiency of your drive application. To complete your drive package, Electrol stocks a wide variety of motors, gear motors and reducers.

Cables and Harnesses

Electrol can produce your cable and harness requirements both as part of your assembly or as stand-alone units. Our harness department is equipped with computerized wire/cable-cutting machinery and a wide variety of terminal applicator equipment.

product information

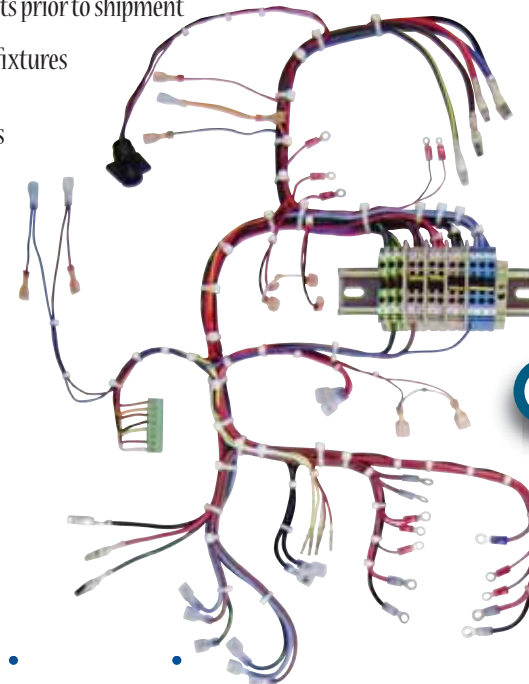

Electrol adds value by completing your electronic assemblies to suit your needs.

Custom Panel Assemblies

We have the capabilities to manufacture from print or from your custom-designed control panels. We look at our role as a partnership. You build your machine and we'll handle all the electrical work. We can even handle extensive specifications and short runs.

We can provide:

- Manufacturing from print or your custom design
- Fast turnaround times
- Short runs
- Testing of all units prior to shipment
- Custom testing fixtures for all types of panel assemblies
- Burn-in testing and cycling

Controls and Motors

All of Electrol's quality controls are made in our York facility. We offer a large inventory of motors, gear motors and reducers.

- 3 HP and below
- Standard and custom products

Cable and Wire Harness Assembly

At Electrol we have a complete department dedicated to filling all of your harness needs. We can provide:

- A complete harness department with computerized cutting and stripping machines for wire and cable
- Building of custom harness boards
- Assemblies ranging from 8-26 gauge wire
- A variety of terminal applicator equipment
- Short runs
- Fast turnaround times
